

Disaster Area Designs

BT-05-RR Right-Angle MIDI Cable

Angle Adjustment Guide

The Disaster Area Designs BT-05-RR cables may be adjusted to eight different positions. To adjust the angle of the plug, please follow the instructions below.

Cables 2012-2017

Standard screwdriver, 1/8"
or Torx screwdriver, T7

Cables 2018-current

Philips #1 screwdriver

Loosen the screw on the side of the headshell. It is not necessary to remove the screw.

Gently rotate the pin sleeve until the pins face the desired direction.

Tighten the screw on the side of the headshell.
